### Brian Beaney FRPS

#### Beyond the Moment of Capture

Brian will show his unique creative techniques and discuss some of the ethics and issues surrounding the current trends in photographic manipulation.

The advent of digital imaging has allowed Brian to use his graphic and art skills to take his photography beyond the moment of capture. The images are digitally painted with light, mood and atmosphere that he hopes will epitomize the peace and tranquillity of the scenes and landscapes. Brian tries to bring back to his pictures some of the "buzz" he experienced when he took the shot. Sometimes the pleasure is just using the imagination.
